# AI in Industry 4.0

AR: WebAR

Field: Education

Target: A space station

On scanning the image, we get 3d look of space station, a rocket, and a satellite.

This is solely for study purpose and to bring a boring 2d image into reality, along with some extra information.

The 3d assets can be zoomed in and out or rotated for better understanding.

**2d images of 3d assets:**

| Space Station | Rocket | Satellite |

How to run the application:

Open this link in your phone: https://web.unitear.com/

It will open unitear scanner, then scan the target image below and see the magic, the world of space.
